

UPDATED BUILD PROMPT: Biogenix Labs Website

Project: Professional pharmaceutical-style research peptide website

Brand: Biogenix Labs

Domain: Biogenixlabs.health

Deadline: This weekend

Target Audience: Research professionals, academic institutions, researchers in Australia and Bangladesh

I. PROJECT OVERVIEW

You are building a professional, pharmaceutical-grade website for **Biogenix Labs**, a research-grade peptide supplier. The site must convey scientific credibility, professional authority, and premium quality while maintaining strict compliance with research-use-only messaging.

The website will feature a comprehensive peptide library with 35+ research-grade compounds, including 4 featured flagship products. The design should look like a legitimate biotech/pharmaceutical research company, NOT a luxury brand.

II. BRAND IDENTITY & DESIGN SYSTEM

Visual Aesthetic

- **Style:** Professional pharmaceutical/biotech company
- **Tone:** Scientific, authoritative, credible, transparent
- **Approach:** Clinical and professional, emphasizing research rigor and quality
- **NOT:** Luxury, decorative, or overly premium-feeling

Color Palette

- **Primary Navy:** #001F3F (dominant, professional, trustworthy)
- **Accent Gold:** #D4AF37 (subtle highlights, premium touches)
- **White:** #FFFFFF (clean, scientific aesthetic)
- **Neutrals:** #F5F5F5 (light backgrounds), #333333 (text)

Typography

- **Headings:** Professional serif (Playfair Display, Garamond) for credibility
- **Body Text:** Clean sans-serif (Inter, Roboto) for readability
- **Accent Text:** Gold for CTAs and key information

Visual Style

- Minimalist, clean layouts with ample whitespace
- Scientific imagery (subtle, not overdone)
- Professional product photography
- Molecular structures and scientific diagrams where appropriate
- Subtle navy gradients for depth
- Gold accent lines for visual hierarchy
- No decorative elements; function-first design

Imagery

- High-quality product vials and packaging
- Scientific/laboratory imagery (professional, not stock-photo style)
- Flags of Australia and Bangladesh (footer/header)
- Professional photography only
- Clean, minimal aesthetic

III. INFORMATION ARCHITECTURE

Site Map

Plain Text

```
Biogenixlabs.health/  
├── Home  
├── Featured Products  
│   ├── Retatrutide (10 mg)  
│   ├── GHK-Cu (50 mg)  
│   ├── BPC-157 (10 mg)  
│   └── TB-500 (10 mg)  
├── Peptide Library  
│   └── [Searchable/Filterable Database]
```

		[35+ Individual Peptide Pages]
		[Category Filters]
		FAQ
		Contact (WhatsApp CTA)
		Legal
		Terms of Service
		Privacy Policy
		Research Use Disclaimer

Navigation Structure

- **Primary Navigation:** Home, Featured Products, Peptide Library, FAQ, Contact
- **Secondary Navigation:** Footer links to legal pages, company info, regional flags
- **Mobile Navigation:** Hamburger menu, simplified layout

IV. PAGE SPECIFICATIONS

A. Homepage

Hero Section

- Full-width background with navy gradient or subtle texture
- Centered headline: "Research-Grade Peptide Compounds"
- Subheading: "Premium Quality Peptides for Scientific Research"
- CTA buttons: "Explore Products" + "Contact via WhatsApp"
- Professional hero image (product packaging or abstract scientific imagery)

Featured Products Section

- 4 product cards in grid (2x2 desktop, stacked mobile)
- Each card includes:
 - Product image (vial/packaging)
 - Product name
 - Dosage (e.g., "50 mg")
 - "RESEARCH GRADE" badge (gold background, navy text)
 - Brief 1-line description
 - "Learn More" button

Company Introduction Section

- 2-3 paragraphs about Biogenix Labs
- Emphasis on: scientific rigor, quality standards, compliance, research focus
- "For Research Purposes Only" disclaimer prominently displayed

Peptide Library CTA Section

- Large button: "Browse Peptide Library"
- Text: "Explore 35+ research-grade compounds"
- Secondary CTA: "Contact our team"

WhatsApp CTA Section

- Large WhatsApp button: "Inquire About Products"
- Text: "Have questions? Chat with our team on WhatsApp"

Footer

- Company name and tagline
 - Links: FAQ, Terms, Privacy, Disclaimer
 - Flags of Australia and Bangladesh
 - Contact email
 - "Research Use Only" disclaimer
 - Copyright
-

B. Featured Product Pages (Retatrutide, GHK-Cu, BPC-157, TB-500)

Layout: Two-column (left: image, right: content) on desktop; stacked on mobile

Content Structure:

1. Product Header

- Product name (large, navy)
- Dosage (gold accent)
- "RESEARCH GRADE" badge

2. Quick Facts Box

- Dosage
- Form
- Purity
- Storage conditions

3. Product Description

- 2-3 sentences explaining what the peptide is

4. Mechanism of Action

- Detailed explanation (3-4 paragraphs)
- How it works at the cellular level
- Receptor targeting

5. Research Findings

- Journal citations formatted as cards
- Key studies and findings
- PMC references, Nature publications, etc.
- Formatted as callout boxes with source attribution

6. Key Benefits

- 4-6 bullet points or short paragraphs
- Research-backed benefits
- Potential applications

7. Specifications Table

- Purity level
- Molecular weight
- CAS number (if applicable)
- Storage conditions
- Shelf life

8. Compliance Notice

- "For Research Purposes Only"
- "Not for Human Consumption"
- Clear, prominent, navy background with white text

9. Related Peptides Section

- Links to 3-4 complementary peptides
- "Often purchased with" or "Complements" messaging

10. CTA

- "Inquire via WhatsApp" button (gold, prominent)
-

C. Peptide Library Page

Header Section

- Title: "Peptide Knowledge Base" or "Research Library"
- Subtitle: "35+ Research-Grade Compounds"

Search & Filter Bar

- Search by peptide name (real-time)
- Filter by category:
 - Weight Management & Metabolic
 - Tissue Regeneration & Recovery
 - Cognitive & Neurological
 - Immune & Systemic Support
 - Appearance & Skin Health
 - Metabolic & Cellular Health
 - Specialized Blends
- Sort options: Name (A-Z), Dosage (Low-High), Category

Peptide Grid/List View

- Each peptide card includes:
 - Peptide name (bold)
 - Dosage/concentration
 - Category tag (color-coded)
 - Brief 1-line description
 - "View Details" button
 - Visual indicator (icon or color badge)

Featured Blends Section

- Highlight 4 popular combinations:
 - Wolverine Stack (BPC-157 + TB-500)
 - Growth Stack (CJC-1295 + Ipamorelin)
 - Glow (TB-500 + BPC-157 + GHK-Cu)
 - Klow (TB-500 + BPC-157 + GHK-Cu + KPV)

D. Individual Peptide Detail Pages

Content Sections (in order):

1. Header

- Peptide name (large, navy)
- Dosage/concentration (gold)
- "RESEARCH GRADE" badge
- Category tag

2. Overview

- What is this peptide?
- 2-3 paragraph introduction
- Origin and discovery
- Classification

3. Mechanism of Action

- Detailed scientific explanation
- Receptor targeting
- Cellular pathways
- Molecular interactions
- 3-4 paragraphs minimum

4. Research Findings

- Journal citations (formatted as cards)
- Key studies with PMC/DOI links
- Clinical observations
- Preclinical data
- Quote callouts from research

5. Potential Applications

- Research contexts
- Complementary uses
- Stacking recommendations
- Common combinations

6. Specifications

- Purity level
- Molecular weight

- CAS number
- Form (lyophilized, solution, etc.)
- Storage conditions
- Shelf life
- Handling instructions

7. **Related Peptides**

- Cross-links to 3-5 complementary products
- "Often stacked with" messaging
- Alternative options

8. **Compliance Section**

- "For Research Purposes Only" (prominent)
- "Not for Human Consumption"
- Legal disclaimer
- Navy background, white text

9. **CTA**

- "Inquire via WhatsApp" button (gold, prominent)
 - Secondary: "Browse Similar Peptides"
-

V. INTERACTIVE ELEMENTS

WhatsApp Integration

- **Floating Button:** Bottom-right corner, persistent across all pages
- **Click Action:** Opens WhatsApp Web/App with pre-filled message
- **Message Template:** "Hi, I'm interested in learning more about Biogenix Labs peptides."
- **Also Include:** Prominent CTA buttons on homepage and product pages
- **WhatsApp Business Number:** [To be provided by client]

Search & Filter (Peptide Library)

- Real-time search by peptide name
- Filter by category (7 categories)
- Sort by: Name, Dosage, Category

- Mobile-friendly search interface

Responsive Design

- **Desktop:** Full-width layouts, multi-column grids, sidebar navigation
- **Tablet:** 2-column layouts, adjusted spacing
- **Mobile:** Single-column, stacked layouts, touch-friendly buttons (min 48px), hamburger menu

Smooth Interactions

- Page transitions (fade-in animations)
 - Hover effects on buttons and links
 - Scroll-triggered animations (subtle)
 - Loading states for search/filter
-

VI. TECHNICAL REQUIREMENTS

Frontend Stack

- **Framework:** React with TypeScript
- **Styling:** TailwindCSS (utility-first design)
- **Build Tool:** Vite
- **Deployment:** Vercel
- **Package Manager:** pnpm

Performance Targets

- Page load time: < 2 seconds
- Lighthouse Performance: 90+
- Lighthouse SEO: 95+
- Lighthouse Accessibility: 95+
- Mobile-first responsive design
- Optimized images (WebP, lazy loading)

Features

- WhatsApp API integration (link generation)
- Searchable, filterable peptide database
- Smooth page transitions
- WCAG 2.1 AA accessibility compliance
- SEO optimization (meta tags, structured data, sitemap)
- Open Graph tags for social sharing

Browser Support

- Chrome (latest 2 versions)
- Firefox (latest 2 versions)
- Safari (latest 2 versions)
- Edge (latest 2 versions)
- Mobile browsers (iOS Safari, Chrome Mobile)

SEO Optimization

- Meta descriptions for all pages
 - H1 tags for page titles
 - Alt text for all images
 - Internal linking strategy
 - Structured data (Schema.org)
 - Sitemap and robots.txt
 - Mobile-friendly design
-

VII. CONTENT GUIDELINES

Tone & Voice

- Professional, scientific, authoritative
- Transparent about research-only use
- Educational, not promotional
- Premium but not luxury
- Credible and trustworthy

Key Messages

1. "Research-grade peptide compounds for scientific advancement"
2. "Backed by scientific research and rigorous quality standards"
3. "For research purposes only - advancing the future of science"
4. "Trusted by researchers in Australia and Bangladesh"

Compliance Language (Every Page)

- "For Research Purposes Only" (prominent, navy background)
- "Not for Human Consumption" (prominent, navy background)
- Footer disclaimer on all pages
- Clear separation between marketing and research information

Writing Style

- Use active voice
 - Keep sentences concise
 - Use subheadings for scannability
 - Include scientific citations
 - Avoid hype; focus on facts
 - Use tables for comparisons
 - Include callout boxes for key information
-

VIII. PEPTIDE LIBRARY CONTENT

35+ Research-Grade Compounds Included

Featured Products (4):

- Retatrutide (10 mg)
- GHK-Cu (50 mg)
- BPC-157 (10 mg)
- TB-500 (10 mg)

Extended Library (31+ additional peptides):

- Weight Management & Metabolic (7): Tirzepatide, Semaglutide, CJC-1295 (with/without DAC), Ipamorelin, Tesamorelin, AOD 9604
- Tissue Regeneration & Recovery (6): Thymosin Alpha-1, Epithalon, Epitalon, and others
- Cognitive & Neurological (4): Semax, Selank, Cerebrolysin, DSIP
- Immune & Systemic Support (4): Thymosin Beta-4, KPV, VIP, and others
- Appearance & Skin Health (4): Melanotan II, Melanotan I, PT-141, and others
- Metabolic & Cellular Health (5): MOTS-C, IGF-1 LR3, Kisspeptin-10, Oxytocin, 5-Amino-1MQ
- Specialized Blends (4): Wolverine Stack, Growth Stack, Glow, Klow
- Supportive Products (2): Bacteriostatic Water, Glutathione

Content for Each Peptide

- Specifications (dosage, purity, form, storage)
 - Overview (what it is, origin)
 - Mechanism of action (detailed)
 - Research findings (journal citations, PMC references)
 - Potential applications
 - Related peptides
 - Compliance disclaimers
-

IX. DELIVERABLES CHECKLIST

- ✓ Responsive website (desktop, tablet, mobile)
- ✓ Homepage with hero, featured products, company intro
- ✓ 4 featured product pages (Retatrutide, GHK-Cu, BPC-157, TB-500)
- ✓ Peptide library with 35+ compounds
- ✓ Individual peptide detail pages (all 35+)
- ✓ Search & filter functionality
- ✓ WhatsApp integration (floating button + CTAs)
- ✓ Legal pages (Terms, Privacy, Disclaimer)
- ✓ SEO optimization
- ✓ Mobile-optimized design

- ✓ Compliance-forward messaging
 - ✓ Deployment to Biogenixlabs.health
 - ✓ Performance optimization (< 2 second load time)
 - ✓ Accessibility compliance (WCAG 2.1 AA)
-

X. SUCCESS METRICS

- Page load time: < 2 seconds
 - Lighthouse Performance: 90+
 - Lighthouse SEO: 95+
 - Lighthouse Accessibility: 95+
 - Mobile responsiveness: 100%
 - WhatsApp CTA engagement: Trackable
 - User engagement: Time on page, scroll depth
 - Search functionality: Fast, accurate results
 - No broken links or 404 errors
-

XI. DESIGN INSPIRATION & REFERENCES

- **Content Structure:** peptide-knowledge-bd.lovable.app
 - **Visual Direction:** Professional biotech/pharmaceutical company websites
 - **NOT:** Luxury brands, decorative designs, or premium aesthetics
 - **Focus:** Scientific credibility, professional authority, research rigor
-

XII. TIMELINE & MILESTONES

Target: Website live by end of weekend

Milestones:

1. Project setup and design system implementation
2. Homepage and navigation structure
3. Featured product pages (4 pages)
4. Peptide library infrastructure

5. Individual peptide pages (35+ pages)
 6. Search & filter functionality
 7. WhatsApp integration
 8. Legal pages and compliance
 9. SEO optimization
 10. Performance testing and optimization
 11. Deployment to Biogenixlabs.health
-

XIII. ASSETS PROVIDED

- Biogenix Labs logo (provided by client)
 - Product images/vials (to be provided)
 - Domain: Biogenixlabs.health
 - WhatsApp Business Number (to be provided)
-

XIV. FINAL NOTES

This is a professional, pharmaceutical-grade website for a research peptide supplier. The design must convey scientific credibility and professional authority. Every page must include clear compliance messaging. The peptide library is the core feature, with 35+ compounds searchable and filterable. The WhatsApp integration is critical for lead generation. The website must be fast, accessible, and mobile-responsive. Launch this weekend.

Ready to build. Let's go.
